## Message from the President of the WFO

### Nikhilesh R. Vaid

The WFO is fully committed to encouraging and fostering the highest standards in global postgraduate orthodontic education. Over the years, the Federation has set up numerous projects pursuing this worthy cause. Guidelines for postgraduate education, a web lecture series portal, a world-class journal, a Society for Orthodontic Speciality Certifying Boards, and The Educators Forum are just some of the initiatives that have been undertaken by our Executive Committees.

We now present to you the first draft of the WFO Educators Directory. This publication is the result of the Committee of The Educators Forum's labour of love! Letizia Perillo has spearheaded this mammoth task. You are kindly requested to contact Letizia, one of the other Executive Committee members, or the WFO central office ([wfo@wfo.org](mailto:wfo@wfo.org)) with any updates and modifications to the listings as and when required.

The purpose of this directory is to promote greater collaboration and friendly partnerships between our educators, who are shaping the future of our speciality. Each one of you is a stakeholder in the WFO, and collectively we can forge the tomorrow we want to see for orthodontics.

Our Executive Committee sincerely hopes that this reference guide will serve as a useful starting point for global interactions amongst our educator community!

Warmest regards,  
Nikhilesh R. Vaid

## Message from the Co-Chairs of the WFO Committee of The Educators Forum

Eric J.W. Liou and Letizia Perillo

Dear Friends and Colleagues,

We are truly delighted and honored to serve as co-chairs of the WFO Committee of The Educators Forum.

Our initial goal was to create, for the first time in the history of orthodontics, a list of full-time orthodontic academics from all over the world. As of April 1, 2023, a draft list of about 2,500 names has been compiled, with the understanding that a good number of WFO affiliate societies have yet to complete and/or submit their roll of qualified educators. We hope to receive the missing names of colleagues in the very near future; they can be sent to the WFO central office ([wfo@wfo.org](mailto:wfo@wfo.org)) or to any Executive Committee member.

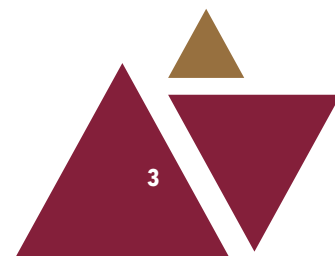

The ultimate aim of the Committee is to organize a Global Orthodontic Educators Forum during the 10th International Orthodontic Congress (IOC). The IOC will be held in Rio de Janeiro at the Riocentro Exhibition & Convention Center from October 20 to 25, 2025.

The Global Educators Forum is scheduled to take place on Wednesday October 22, in Pavilion 5. It will be a unique opportunity to share thoughts and opinions, experiences and expertise with an outstanding group of orthodontic educators from around the world.

So it is with great pleasure that we invite our fellow orthodontic academics to join us. Please mark the dates in your calendar now. It's going to be an unforgettable meeting!

Eric J.W. Liou

Letizia Perillo

## Introduction

During the WFO Executive Committee meeting held on October 18, 2020, WFO President Dr. Nikhilesh R. Vaid proposed the setting-up of a WFO Committee to develop an Educators Forum, initially charged with compiling a global list of recognized orthodontic educators. The idea was to create a directory in order to organize an Orthodontic Educator's Meeting at the next International Orthodontic Congress in Rio de Janeiro in October 2025. The purpose of this meeting will be to facilitate communication within the orthodontic specialty academic community by exchanging ideas and finding solutions to common problems, sharing announcements and resources, collecting feedback on research proposals, and looking for project partners.

The WFO Committee of The Educators Forum is composed of:

1. Eric J.W. Liou (Co-chair)
2. Letizia Perillo (Co-chair)
3. Flavia Artese
4. Valmy Pangrazio-Kulbersh
5. Takashi Ono
6. Nikhilesh R. Vaid, WFO President (ex officio)
7. Lee W. Graber, WFO Secretary-General (ex officio)

The first task of the Committee was to curate a list of global orthodontic educators, including full-time orthodontic faculty members, program directors, and department chairs. Part-time and adjunct faculty were not included in this list, although they are recognized as important to the education mission in most undergraduate and postgraduate orthodontic programs.

Each member of the Committee of The Educators Forum was in charge of their respective region. However, for some specific areas, additional contributors were brought in to assist.

Currently, the initial draft list includes about 2,500 orthodontic educators with their email addresses, when available (some are limited by privacy regulations).

Of course, even with the best efforts of the Committee, this list cannot include all the world's orthodontic educators. Undoubtedly, some names were not collected, including those from WFO affiliates who have either as yet not responded to the request for submission of their recognized educators, or who have submitted only a partial list. Some educators may have been included but no longer fit the criteria, and some information is still incomplete. In addition, some names may contain minor errors in spelling. For any omissions and unintended mistakes, the Committee offers its apologies.

The Committee looks forward to receiving any and all missing names, which can be sent to the WFO central office ([wfo@wfo.org](mailto:wfo@wfo.org)) or to any Executive Committee member. *This remains a work in progress.*

Once the initial educator list is completed, it should be updated and corrected at least every two years.

## Acknowledgements

The Committee of The Educators Forum thanks its members and the additional contributors – Khaled Samir AboulAzam, M. Ali Darendeliler, Bryce Lee, and Yanheng Zhou – for identifying members of the international orthodontic educator community. All provided, and continue to provide, their invaluable support in completing this project.
